

'BIRTH DEFECT' BOYS SHOWS—

Where Your Money Goes

CLYDE AND HIS HORSE, FURY

Where does your money go that you give to the March of Dimes now that the fight against polio is about won? One of the charity organizations principle efforts now is the fight against birth defects. This heart-breaking tragedy affects hundreds of children born each year including one little boy right here in Hamlin.

Clyde Flenniken is a typical and not so typical little boy of four. He is typical because he is unhappy if he cannot find a favorite gun and then breaks out into a big smile when the gun is found. Also, like most four year old boys, he is not satisfied with just the puny little pop made by the gun when he shoots it and therefore he throws in his own sound effects to accentuate the noise.

The thing that makes Clyde more than just a typical boy is the fact that he was born with spina bifida, or an open spine. His backbone had failed to close properly before he was born.

His winning smile, his friendly disposition, his alertness, and his happy attitude make it

hard for one to realize that he was one of these unfortunate ones born with a serious birth defect.

Clyde is the son of Mr. and Mrs. Tommy Flenniken of Abilene, who were living in Lake Charles, La., when he was born there Dec. 23, 1959. His grandparents, Mr. and Mrs. T. W. Flenniken, with whom he lives, were there visiting at that time.

From the moment of his birth the family was offered nothing but discouragement for his chances by the specialists. They were told immediately of his condition, one of the most complex of all structural birth defects, and were told not to plan on taking him home because he would never walk, talk or have any of the abilities of a normal child.

But with undaunted faith, the family would not be dissuaded and insisted that surgery be performed. The day after his birth the initial operation closing the opening in the lower part of his back was performed at the Charity Hospital in New Orleans, La., which was to be his home for the first six months of his life.

But this operation was only the beginning of the battle as two more operations were necessary before he could be taken home from the hospital.

The second operation was made when he was three months old and was performed at the base of his skull for hydrocephalus, or water on the brain. This is a situation where the body does not have the ability to circulate and absorb cerebrospinal fluid in the normal way and the excess fluid is backed up under the skull.

A month later the tiny tot had a bout with meningitis further complicating the problem of the excess fluid and the third operation was performed. A tiny plastic tube was placed just under the skin above and behind his right ear. The tube forms an artificial bypass around the defective pathway and permits the excess fluid to drain harmlessly into the blood stream.

Finally his family was told that that they could take the little boy home at the age of six months with the instructions to "Let him lead as normal life as possible and make him mind." But the family was

given no hope that he would ever lead any kind of normal life.

But with all of the love and care of a dedicated family and all the help of modern medical science, Clyde is well on the way to leading a normal life. Including walking, talking and even riding his own horse Fury.

Today, at the age of four, he has an above average vocabulary, he has walked since he was two and one-half years old, and takes part in activities enjoyed by all children his age.

Braces were placed on his legs last year to strengthen the muscles. The added weight of these has not seemed to slow him down much, however.

His grandparents, who own the Pied Piper Inn motel here, are great rodeo enthusiasts and Clyde can be found among the fans at many of the rodeos around the state eating hot dogs, pop corn and enjoying every minute of the performances.

When the Mothers March here Friday for the March of Dimes they will be asking citizens to help with a program in which this much is known:

A birth defect is in all likeli-

hood not the fault of the parents nor is it likely a result of heredity. In the majority of cases, it is caused from an outside influence. But what?

Only a few birth defects can not be treated. Actually only five per cent of affected children can not be helped.

'FREE' RECEIPTS NOW BEING ISSUED FOR FEDERAL VOTING

A. J. French Jr., county tax assessor-collector, said Wednesday that his office had started issuing "free" poll tax receipts to those people who were between the ages of 21 and 60, who failed to pay their poll tax before Jan. 31, and wanted to vote in the national election.

Their receipts will carry a line across them saying "Poll Tax not paid" and will not qualify a voter to vote in any state, district, county, precinct, school, or city election. The holder of one of these receipts

may vote in the congressional races, the senatorial race and in the race for president and vice president.

This unusual situation was brought about by the certification of the amendment to the Federal Constitution which outlaws the poll tax as a requirement for voting for federal offices. The two types will be in use since the voters of Texas turned down the amendment to the Texas Constitution that would have eliminated the poll tax in the state and local races.

Deadline for obtaining the receipts is March 6.

The new type receipts will not be needed by anyone who holds valid poll tax receipts or anyone who is over 60 years of age.

French reported Wednesday that the county issued 3,828 receipts this year, plus 108 exemptions for those just turning 21. This compares with 4,281 issued four years ago during the last presidential election year. French said that he was not surprised at the figure being lower this year since there has been so much confusion over whether the poll taxes would have to be paid this year or not.

The BCD office here in Hamlin issued 442 receipts this year according to Mrs. Ned Moore, secretary.

Top-Dressing of Wheat Being Urged By County Agent

Now is the time to start thinking about top-dressing your wheat, says Jones County Agent, Kirby Clayton. After the recent rains over the area, Clayton says that top-dressing wheat with 20-30 pounds of nitrogen could pay good dividends at harvest time. Clayton recommends putting the fertilizer on top when the wheat plant is dry; moisture activates the nitrogen and burns the leaves if put on during a damp dew.

Liquid nitrogen may be put down following narrow chisels, with very little or no damage being done to the wheat. If anything other than nitrogen is put down at this time, it should be put down under the ground following a narrow chisel.

For further information, contact your county agent.

Bridge Winners

Dan Gallagher and Mrs. Floyd Clifton were first in the duplicate bridge play at the Oil Mill Guest House Tuesday evening.

Mrs. Holly Toler and Mrs. Henry Albritton were second; Mrs. Harry Yates and Mrs. Grady Bowdrey, both of Stamford, were third.

Attend YOUR BCD banquet Friday night.

MOTHERS SET MARCH HERE FRIDAY, 4 TO 6

The Mother's March will be held here Friday, Feb. 7, from 4 to 6 p.m. with Mrs. Jack Vaughan, chairman of the community service committee of the Woman's Forum, making the arrangements.

Volunteers who can take part in the drive are urged to call Mrs. Vaughan or others on the committee, Mrs. James Harrison and Mrs. Donley Williams.

The MOD campaign, originated by the National Foundation for Infantile Paralysis which was founded by Franklin D. Roosevelt, is held each year in January. The funds derived from the annual drive are now spread out to include treatment of birth defects, arthritis, polio and to support biological studies.

BCD Banquet for Friday Evening

Over 300 are expected here Friday night for the Board of Community Development's annual banquet to be held in the high school gymnasium starting at 7:30, according to Bob Craig, chairman. The banquet is the highpoint of the year for the organization in that it marks the start of a new year

with the honoring of the retiring and the newly elected officers.

Featured on the program will be the performance of the Pied Piper Stage Band and an address by Lewis R. Timberlake, formerly of Stamford and now of Austin.

The stage band will be under

the direction of Gary Ted Jay, student director, in the absence of band director Tim Jones who will be out of town for a band convention. "JUST GRAZING IN THE RAIN"—Monday's rain did not seem to bother these Angus cattle as they continue their grazing as the rain was falling Monday. With the lack of winter rains until this past week the above sight has not been a common one in this area this winter, but now that the wheat has enough moisture to grow it is expected that there will be field after field of cattle grazing on the young wheat within days. Rains here last Wednesday and Thursday measured 1.09 inches and rains Monday and Tuesday this week totaled .95 inches for a total of 2.04 inches.

TRIUMPHANT LIVING

REV. SPENCER LILES
Pastor, Foursquare Gospel
Church

One's opinions may change readily in accordance with available information; but one's convictions come from deep within his being and change very slowly or not at all. Opinions are unstable; convictions are relatively stable. The former are of little help in shaping one's life; the latter afford a solid foundation upon which one may build.

When one loses his convictions he is like a ship without a rudder. There is no longer an unchangeable inner core of his life around which he may construct a personality. He says to himself perhaps there is no God; maybe other religions are as good as the Christian religion; maybe the Ten Commandments are not so important. I will not be a slave to old prejudices but will enjoy life and follow my inclinations. He succumbs to the popular mode and to his environment. By and by such a one finds that he no longer has a purpose—that life has lost its meaning. Most of the unfortunate victims who inhabit our institutions for the mentally ill lost their convictions long before their breakdown occurred. Disintegration of character and personality follows the loss of convictions. People who know whom I have believed... (2 Tim. 1:12) seldom need the psychiatrist or the hospital for the mentally ill.

Faith in God, a belief in the Bible, and a steadfast determination to lead a Christian life in accordance with one's

ghost insights, is the best mental therapy ever developed. Those who read their Bibles every day, attend church regularly, and do their best to know and to follow the will of God, are not likely to become mentally ill, for they are being cared for by the Great Physician who knoweth our needs before we tell Him.

Most of the world's great leaders have been men of powerful convictions. Abraham's unshakable faith led him to leave his kith and kindred, and strike out alone and to become the father of a great people, a new nation, a new culture and a new religion. Moses' convictions enabled him to found a great nation from a mob of slaves, and to lead his people through incredible hardships over a period of forty years of wandering in the desert.

Socrates' convictions led him to maintain the truth, and in perfect tranquility to drink the poison cup.

The early Christians triumphed over the sword, the lions and the stake because their convictions could not be shaken.

Of course one may live and die for wrong ideals. It is important to have the right convictions. Most of us know what is right, but have lost our determination to do it, and fall into the category of these described in Revelations: "...because thou art lukewarm, and neither cold nor hot, I will spew thee out of my mouth." (Rev. 3:16)

If we can recover the faith of Paul expressed in the fol-

YEARS AGO—

FIVE YEARS AGO:

Hamlin's community contributions this year to the National Foundation formerly the National Polio Foundation) are expected to exceed the community's gifts of last year, declared Ed Croan, community drive chairman, Wednesday as tabulations were being made on the almost completed campaign.

Joy Crawford of Abilene and Vernon E. Charlton of Arlington repeated wedding vows in a double ring ceremony Saturday evening at 6:00 at the Hamlin First Baptist Church.

TEN YEARS AGO:

Three people died in fires in the Hamlin region within two days this week. R. N. Shelton 72, was burned in the destruction of his home in East Hamlin Thursday and two Bevins children died of burns at the home five miles east of town Wednesday morning.

FIFTEEN YEARS AGO:

Total funds raised in the March of Dimes in Hamlin community this week neared \$1,000, reports Mrs. V. R. Bond, drive chairman.

Hamlin merchants were victims last week of home "hot check" artists. More than \$100 in worthless checks were passed. No arrests have been made.

TWENTY-FIVE YEARS AGO:

Richard Feagan, son of Mr. and Mrs. Elmer Feagan, has been awarded a national scholarship certificate for the second year at Southern Methodist University in Dallas.

Prizes if \$125 will be given to winners in the first annual Livestock Show being staged Saturday at Hamlin under the auspices of the Hamlin Chamber of Commerce, Lions Club, Rotary Club, and the Woman's Literary Club.

THIRTY-FIVE YEARS AGO

According to last reports, practically all the right-of-way for the 10 mile line of the Hamlin and Northwestern Railway to the new Sand and Gravel Co. northeast of Hamlin has been secured.

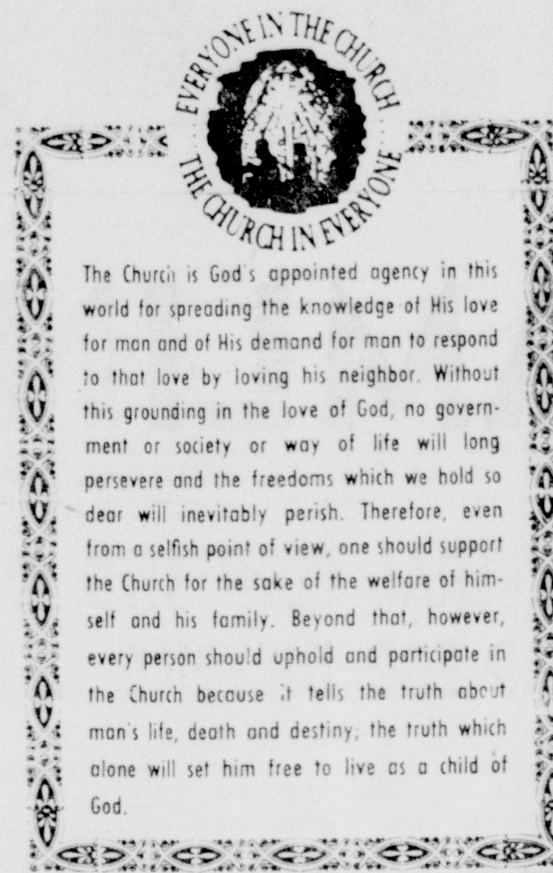

Following words, we will seldom need a physician and never a psychiatrist or mental hospital: "For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus or Lord." (Rom. 8:38 and 39).

HIS TROUBLES WON'T GET HIM DOWN

Forgetting his incapacitation, he is happily determined to plan ahead. His spirit is not easily crushed. Life is always full of hope and excitement. The Lord and this young man's Christian friends have taught him to have such an outlook on life.

"But the fruit of the spirit is love, joy, peace, long-suffering, gentleness, goodness, faith." Galatians 5:22.

We invite you to attend the church of your choice regularly to worship, to be uplifted, encouraged, and blessed.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

PHILOSOPHER MULLS OVER THE UNEXPLORED PROBLEM OF WHO'S QUALIFIED TO BE A SENATOR

Editor's note: The Neindacoverage in that state, but I Philosopher on his Johnson was interested in some things grass farm on Route 1 gets into I read after that astronaut, a discussion this week which is Glenn, announced he was running his responsibility, not ours: ning for the United States Senate.

FAIRVIEW NEWS

By MRS. ELMER JOINER

We have very good news this week, concerning the weather, for Wednesday and Wednesday night there fell about an inch and a half of rain, and in some places a little more. This was really a life saver for the wheat, as a few more sand storms like the one we had a few Sundays ago, without some water, and the wheat might have been damaged beyond redemption. When things look the darkest for we farmers, the Lord usually takes pity on us and sends us rain, for which we are thankful.

The Drake Family is one hundred dollars richer, since winning in the Safeway, "Sword in the Stone" contest. Our congratulations go to them on their good luck.

Family night was celebrated Friday night, at the Oil Mill Guest House in Hamlin, with a supper, followed by a short program and fellowship hour. Twenty-six persons attended, including two visitors, Mrs. Leverett's mother and brother, Mrs. Ellen Tanner and Larry of Abilene.

Dorothy Gray is spending a few days at home with her parents, Mr. and Mrs. Winsor Gray. She is employed in a beauty shop in Amarillo.

Mr. and Mrs. H. L. Leverett, Odessa, parents of the pastor, were visitors in church Sunday morning. They were visiting their son and family over the week end and came out to hear him preach Sunday morning.

Visitors for lunch Sunday, of the H. L. Ford were, Mr. and Mrs. Fred Rosenbaum and Mr. and Mrs. Joe Ford.

Mrs. Mary Newberry, Karl Bonneaux and Elmer Joiner drove to Wichita Falls Wednesday, through the rain, to attend the District 3, Training Meeting, for the Home Demonstration Clubs.

Mr. and Mrs. Woodrow Goodwin visited with Mr. and Mrs. Winsor Gray Saturday night.

Mr. and Mrs. Clois Henry and children, from Snyder, flew over Sunday afternoon, for a visit with their parents, Mr. and Mrs. E. A. Henry.

Mr. Henry failed to make it to church Sunday morning as the ox apparently fell in the ditch for him. He had to load a cow and take her to the doctor. Times are changing so quickly, that when our animals

get sick now, we take them to the doctor and get their suffering relieved, which is very good for them. Some of the concoctions that we used to pour down them would have killed them if the ailment didn't.

Mr. and Mrs. Archie Hogan, Spur, visited with her, brother, Mr. and Mrs. Woodrow Goodwin and Linda, Sunday afternoon.

Mr. and Mrs. H. L. Ford and Diane, Mr. and Mrs. Flavil Holmes, all had a big 42 game with Mr. and Mrs. Fred Rosenbaum, Saturday night.

Mr. and Mrs. Woodrow Goodwin and Linda visited with Mr. and Mrs. Elmer Joiner after church Sunday night. Mrs. Joiner and Goodwin placed a call to their sister, Mrs. Elmer Smith, Carlsbad, New Mexico, whose husband entered the hospital in Carlsbad Friday for exploratory surgery, to find out his condition. It was learned that Mr. Smith's condition was not as bad as it was feared, and surgery is not contemplated at this time, although it may have to be performed in the future.

The Leveretts worked on their house remodeling project again Saturday. Mrs. Tanner and Larry coming over again to help them. Although Larry is still just a school boy, he works at the carpenter trade, which makes it very nice for his sister, when she decides to make her home over.

a field apparently nobody has explored, and if a young man came to you and said he was interested in training to be a senator, what would you tell him? I'm not up on these matters, but I doubt if there's a college or university in the country offering a course in Senatorship. It's like trying to study for the Supreme Court.

Another thing the papers said about Glenn was that he shouldn't try to start at the top, he ought to run for some lesser office first. I can see how a Senator could think a man ought to run for Congress first, and I can see how a Congressman could think he ought to run for a state office first, and I can see how a state office could say he ought to run for a local office first, and how a local official could say he ought to stick a while longer with farming or barbering or whatever he's doing, and while if I had thought farming was the first step toward becoming a Senator I'd never have taken it, still I doubt if this is the right system. I don't know of anybody who took up farming in order to qualify for public office, but I know several who took up public office to avoid farming.

Yet getting back to the original subject, is Glenn qualified by training to be a Senator, I doubt it. When he was completing his third orbit of the earth was getting ready to decide the split-second to pull the lever that'd return him to earth on target, what shape would he have been in if he'd had to refer the decision to a committee for ten months?

Yours faithfully,
J. A.

Connally announced a traveling and speaking schedule which included visits to UPI and AP managing editors' conventions here; a Boy Scout Capitol; Abilene's B-52 day celebration on February 15; the Laredo Washington Birthday festival on February 22; the Paper Industry Salesmen's Association meeting in New York on February 25; dedication of the New York World's Fair Texas exhibit on February 28; and probably a visit with President Johnson in Washington on the way back to Texas.

LIBRARY ADDITIONS — Texas State Library last week obtained an historic treaty and an historic suit of clothes. Both are certain to be viewed by thousands in years ahead.

Sen. Ralph Yarborough presented the Library a certified State Department copy of the El Chamizal treaty signed by President Johnson on December 29 — defining the boundary along the Texas-Chihuahua and El Paso-Juarez borders. The treaty, placed on display in a glass case, ended a century old boundary dispute.

Governor Connally, at the Library's request, turned over to the State archives the black, light-weight suit he was wearing when he was seriously wounded in Dallas. He was the first Texas governor to be the victim of an assassination attempt. The suit bears holes in the back, front and right sleeve. Also placed in the archives is the blood-stained shirt Connally wore on the tragic November day, and his black and gold-silk tie.

Thousands of Texans reportedly were caught with valueless paper on their hands when the firm went into bankruptcy. Carr recommends getting all facts on its history and status plus full details of an alleged sale of accounts to another company also licensed by the commission.

CONNALLY IN CIRCULATION — Governor Connally returned to city at his office in the Capitol last week, for the first time since he was wounded in Dallas on November 22 by the assassin of President Kennedy.

Sen. Walter Richter of Gonzales, the governor's representative, and Walter Meyer of San Antonio, who originated the plan, took off for Germany Sunday to test the program.

They hope to encourage 40 or 50 German citizens to make a 16-day red carpet tour of Texas' leading cities and historic spots from October 15 through November 2.

Texas Tourist Development Agency is sponsoring the projected program in cooperation with Chambers of Commerce and interested private citizens. No public funds are involved.

The tourists, of course, will pay their own way, although some will benefit from hospitality in Texas homes. First visitors will get special low plane fare and at-cost prices all around.

It is hoped the initial visit by the Germans will establish guidelines for a continuing long-range program to boost travel in Texas by globe-trotters from other lands.

COURT RULES ON LAND — In a 5-4 decision, the State Supreme Court overruled lower courts and directed a new trial in a dispute over oil income on 10,000 acres of Winkler County land.

Suit, brought by Southland Royalty Company against Pan American Corporation to recover a portion of proceeds from minerals produced, involves interpretation of a 39-year-old lease.

MO FIRM PROBE URGED — City Gen. Waggoner Carr has called on State Banking Commissioner J. M. Falkner to continue investigation of a collapsed California money order firm, American Security Currency Limited, was doing business in 317 Texas grocery and drug stores.

Public Warned of Social Security Imposters in Area

Imposters who claim to be Social Security representatives are now operating in the Central Texas area and may be heading this way, warns R. R. Tuley Jr., District Manager of the Abilene Social Security Office.

Tuley said the imposters are asking money in payment for assistance in getting Social Security checks started or higher payment rates for those already receiving such checks.

Several persons have already paid the fraudulent representatives fees of \$19.60 for promised help, he said.

Tuley said real Social Security representatives carry identification cards and do not accept payment from applicants for their services.

County Purchases Billing Machine

Jones County Commissioners in a special session Friday authorized purchase of a Burroughs billing machine for use in the tax collector's office. There was only one bid submitted.

A. J. French, tax assessor-collector, appeared before the court at its regular January meeting, requesting the machine, pointing out that with the new valuation program, every tax notice in the county may have to be refigured. He reminded that not only does his office handle county taxes but those for two common school districts, a road district and state taxes as well.

The new machine, to be delivered in July, cost \$7,515.20 and will carry 19 totals. It will be used for making automobile registration reports and for other county work in addition to seeing heavy service during tax roll time.

The following article appeared in this month's "Celo News", a company publication of the Celotex Corporation. Since it is getting close to that tax paying time again it is well to take a look at some of the government programs that the public or business pays for but seems to think that the government furnishes.

"Can you count on the government to take care of your security? Many people seem to think so.

"Many people say, 'The government provides me with Social Security.' But does it? The truth of the matter is that you and your company provide Social Security. If you don't believe it, take a look at your check stub. And remember, your company matches every dollar you put into Social Security!

"What about unemployment insurance — that's government, isn't it? It is paid out by government, but as many people don't know, it is paid entirely by employers. And the more profitable the company, the less chance that unemployment insurance will be needed.

"Your company benefits such as the pension plan, hospitalization, weekly indemnity insurance, and life insurance amount to much more security than the government can provide.

"The fact of the matter is that practically all of the Federal government's money comes out of the profits of companies and from the incomes of people like us, the wage earners.

"Remember, the government doesn't create money. It receives its income by taxing you and your company. A recent survey indicates that it takes the taxes of six working people to keep one Federal secretary on the job. We as wage earners pay pretty good salaries, don't we? You say you don't believe it! Take a look at your check stub next payday."

'BIRTH DEFECT' BOYS SHOWS—

Where Your Money Goes

CLYDE AND HIS HORSE, FURY

Where does your money go that you give to the March of Dimes now that the fight against polio is about won? One of the charity organizations principle efforts now is the fight against birth defects. This heart-breaking tragedy affects hundreds of children born each year including one little boy right here in Hamlin.

Clyde Flenniken is a typical and not so typical little boy of four. He is typical because he is unhappy if he cannot find a favorite gun and then breaks out into a big smile when the gun is found. Also, like most four year old boys, he is not satisfied with just the puny little pop made by the gun when he shoots it and therefore he throws in his own sound effects to accentuate the noise.

The thing that makes Clyde more than just a typical boy is the fact that he was born with spina bifida, or an open spine. His backbone had failed to close properly before he was born.

His winning smile, his friendly disposition, his alertness, and his happy attitude make it

hard for one to realize that he was one of these unfortunate ones born with a serious birth defect.

Clyde is the son of Mr. and Mrs. Tommy Flenniken of Abilene, who were living in Lake Charles, La., when he was born there Dec. 23, 1959. His grandparents, Mr. and Mrs. T. W. Flenniken, with whom he lives, were there visiting at that time.

From the moment of his birth the family was offered nothing but discouragement for his chances by the specialists. They were told immediately of his condition, one of the most complex of all structural birth defects, and were told not to plan on taking him home because he would never walk, talk or have any of the abilities of a normal child.

But with undaunted faith, the family would not be dissuaded and insisted that surgery be performed. The day after his birth the initial operation closing the opening in the lower part of his back was performed at the Charity Hospital in New Orleans, La., which was to be his home for the first six months of his life.

But this operation was only the beginning of the battle as two more operations were necessary before he could be taken home from the hospital.

The second operation was made when he was three months old and was performed at the base of his skull for hydrocephalus, or water on the brain. This is a situation where the body does not have the ability to circulate and absorb cerebrospinal fluid in the normal way and the excess fluid is backed up under the skull.

A month later the tiny tot had a bout with meningitis further complicating the problem of the excess fluid and the third operation was performed. A tiny plastic tube was placed just under the skin above and behind his right ear. The tube forms an artificial bypass around the defective pathway and permits the excess fluid to drain harmlessly into the blood stream.

Finally his family was told that that they could take the little boy home at the age of six months with the instructions to "Let him lead as normal life as possible and make him mind." But the family was

given no hope that he would ever lead any kind of normal life.

But with all of the love and care of a dedicated family and all the help of modern medical science, Clyde is well on the way to leading a normal life. Including walking, talking and even riding his own horse Fury.

Today, at the age of four, he has an above average vocabulary, he has walked since he was two and one-half years old, and takes part in activities enjoyed by all children his age.

Braces were placed on his legs last year to strengthen the muscles. The added weight of these has not seemed to slow him down much, however.

His grandparents, who own the Pied Piper Inn motel here, are great rodeo enthusiasts and Clyde can be found among the fans at many of the rodeos around the state eating hot dogs, pop corn and enjoying every minute of the performances.

When the Mothers March here Friday for the March of Dimes they will be asking citizens to help with a program in which this much is known:

A birth defect is in all likeli-

CLYDE FLENNIKEN

hood not the fault of the parents nor is it likely a result of heredity. In the majority of cases, it is caused from an outside influence. But what?

Only a few birth defects can not be treated. Actually only five per cent of affected children can not be helped.

DEADLINE MARCH 6—

'FREE' RECEIPTS NOW BEING ISSUED FOR FEDERAL VOTING

A. J. French Jr., county tax assessor-collector, said Wednesday that his office had started issuing "free" poll tax receipts to those people who were between the ages of 21 and 60, who failed to pay their poll tax before Jan. 31, and wanted to vote in the national election.

Their receipts will carry a line across them saying "Poll Tax not paid" and will not qualify a voter to vote in any state, district, county, precinct, school, or city election. The holder of one of these receipts

may vote in the congressional races, the senatorial race and in the race for president and vice president.

This unusual situation was brought about by the certification of the amendment to the Federal Constitution which outlaws the poll tax as a requirement for voting for federal offices. The two types will be in use since the voters of Texas turned down the amendment to the Texas Constitution that would have eliminated the poll tax in the state and local races.

Deadline for obtaining the receipts is March 6.

The new type receipts will not be needed by anyone who holds valid poll tax receipts or anyone who is over 60 years of age.

French reported Wednesday that the county issued 3,828 receipts this year, plus 108 exemptions for those just turning 21. This compares with 4,281 issued four years ago during the last presidential election year. French said that he was not surprised at the figure being lower this year since there has been so much confusion over whether the poll taxes would have to be paid this year or not.

The BCD office here in Hamlin issued 442 receipts this year according to Mrs. Ned Moore, secretary.

Top-Dressing of Wheat Being Urged By County Agent

Now is the time to start thinking about top-dressing your wheat, says Jones County Agent, Kirby Clayton. After the recent rains over the area, Clayton says that top-dressing wheat with 20-30 pounds of nitrogen could pay good dividends at harvest time. Clayton recommends putting the fertilizer on top when the wheat is dry; moisture activates the nitrogen and burns the leaves if put on during a damp dew.

Liquid nitrogen may be put down following narrow chisels, with very little or no damage being done to the wheat. If anything other than nitrogen is put down at this time, it should be put down under the ground following a narrow chisel.

For further information, contact your county agent.

Bridge Winners

Dan Gallagher and Mrs. Floyd Clifton were first in the duplicate bridge play at the Oil Mill Guest House Tuesday evening.

Mrs. Holly Toler and Mrs. Henry Albritton were second; Mrs. Harry Yates and Mrs. Grady Bowdrey, both of Stamford, were third.

MOTHERS SET MARCH HERE FRIDAY, 4 TO 6

The Mother's March will be held here Friday, Feb. 7, from 4 to 6 p.m. with Mrs. Jack Vaughan, chairman of the community service committee of the Woman's Forum, making the arrangements.

The March of Dimes is sponsored by the Lions Club and Leldon Clifton is chairman. The Mothers March is being handled by the Woman's Forum which is made up of the seven Hamlin women's clubs and sororities. Each club is to have ten representatives.

The door to door canvas will begin about 4 p.m. All workers are to report to Harden Memorial Library at 4 to pick up materials and get assignments. They will report back to the library after working their assigned sections.

Volunteers who can take part in the drive are urged to call Mrs. Vaughan or others on the committee, Mrs. James Harrison and Mrs. Donley Williams.

The MOD campaign, originated by the National Foundation for Infantile Paralysis which was founded by Franklin D. Roosevelt, is held each year in January. The funds derived from the annual drive are now spread out to include treatment of birth defects, arthritis, polio and to support the Salk Institute for Biological studies.

Retired Farmer, Otto M. Stice, 83, Buried Here Thurs.

Services were held here at 1:30 p.m. Thursday at the First Methodist Church for Otto M. Stice, 83, who died at his home Tuesday, Jan. 28, at 11:30 p.m. Mr. Stice a retired farmer, had been a resident of Hamlin since 1922. He had been ill for about ten months.

Born Jan. 5, 1881, in Grayson County, he was the son of Mr. and Mrs. David L. Stice. He was married to the former Lillie Mae Smith in Sherman July 23, 1909. She died in 1963.

Another late filer was Bill Longly of Stamford who entered the race for Jones County Sheriff. The three-man race will be between Dave Reves, present sheriff, James F. Pippin and Longley.

Also filing late was Wallace T. Williams for Commissioner, Precinct 3 in the southern part of Jones county. He is opposing Lem Ruark and James D. Beasley who filed earlier.

Filings in the county are as follows: Congress, 17th district: Omar Burleson and Max Carriker. State Senator, Ratliff and Wheatley.

State representative, 83rd district: Roy Arledge. Judge, 104th district court: J. Neil Daniel, Owen B. Thom-

BCD Banquet for Friday Evening

Over 300 are expected here Friday night for the Board of Community Development's annual banquet to be held in the high school gymnasium starting at 7:30, according to Bob Craig, chairman. The banquet is the highlight of the year for the organization in that it marks the start of a new year

with the honoring of the retiring and the newly elected officers.

Featured on the program will be the performance of the Pied Piper Stage Band and an address by Lewis R. Timberlake, formerly of Stamford and now of Austin.

The stage band will be under

the direction of Gary Ted Jay, student director, in the absence of band director Tim Jones who will be out of town for a band convention. The stage band is well known in this area, having played for both of the West Texas Amateur Hour programs held in Abilene and played for the recent Telerama for the March of Dimes.

Timberlake is vice president and agency director of Western Republic Life Insurance Company and is well known over the state for his work in the Junior Chamber of Commerce organization, having served on both the state and national levels.

S. L. Tate, music and education director of the First Baptist Church here, will be master of ceremonies. The Rev. Cecil Stowe will give the invocation and Tate will give the benediction.

Joe E. Ford, retiring president, will introduce the directors of the organization and the incoming officers. New officers to be introduced are: Loyd Burkhart, president; C. F. Cook, first vice president; Lewis Madden, second vice president; Edgar Duncan, third vice president; and James E. Rodgers, treasurer.

The Hamlin Business and Professional Women's Club are taking care of decorations for the affair again this year.

The Hamlin Public School cafeteria will cater the meal with the menu as follows: roast beef, baked potatoes, sour cream, green beans, salad, dessert, rolls, tea and coffee. The meat will be prepared by Mack-Eplen's of Abilene.

Timberlake started as agent for Western Republic Life Insurance Company in Stamford in 1956 and four years later was named agency supervisor. A year later he was made assistant vice president and was made a full vice president and Agency Director in 1962. In

"JUST GRAZING IN THE RAIN"—Monday's rain did not seem to bother these Angus cattle as they continue their grazing as the rain was falling Monday. With the lack of winter rains until this past week the above sight has not been a common one in this area this winter, but now that the wheat has enough moisture to grow it is expected that there will be field after field of cattle grazing on the young wheat within days. Rains here last Wednesday and Thursday measured 1.09 inches and rains Monday and Tuesday this week totaled .95 inches for a total of 2.04 inches.

and what have you

by BOB CRAIG

When the weather was like it was here Monday — dark, dreary, sloppy and messy—where but in West Texas would it bring smiles to the faces of everyone.

But wasn't the rain last week and this week a beauty! It is hard to remember when we last had such a good slow, earth soaking rain.

No one can place a money value to rains like these have been but if you could it would be a tremendous effect on the cattle situation — coming not any too soon either — and will bring promise of a good small grain crop this year, too say nothing of the benefits to be derived later in the year from the seasoning.

One area farmer-rancher was heard to say that he had a 100 head of cattle just standing there waiting for a sprig of wheat to show itself above the ground.

From reports of business around town this past week and it was proven again that there is nothing wrong with West Texas, that a good rain won't cure.

Attend YOUR BCD banquet Friday night.

Ever wonder who is the biggest taxpayer in Jones County? According to a check by the "Stamford American" of the records in the office of Tax-Assessor-Collector A. J. French Jr. it is Humble Oil and Refining Co.

They pay more taxes than anyone else in the county, business, individual or what have you. Second in amount paid is Southwestern Bell Telephone Co.

Third place goes to an individual—A. V. Jones of Abilene. Mr. Jones owns considerable oil production in the Lueders area.

TRIUMPHANT LIVING

REV. SPENCER LILES
Pastor, Foursquare Gospel Church

One's opinions may change readily in accordance with available information; but one's convictions come from deep within his being and change very slowly or not at all. Opinions are unstable; convictions are relatively stable. The former are of little help in shaping one's life; the latter afford a solid foundation upon which one may build.

When one loses his convictions he is like a ship without a rudder. There is no longer an unchangeable inner core of his life around which he may construct a personality. He says to himself perhaps there is no God; maybe other religions are as good as the Christian religion; maybe the Ten Commandments are not so important. I will not be a slave to old prejudices but will enjoy life and follow my inclinations. He succumbs to the popular mode and to his environment. By and by such a one finds that he no longer has a purpose—that life has lost its meaning. Most of the unfortunate victims who inhabit our institutions for the mentally ill lost their convictions long before their breakdown occurred. Disintegration of character and personality follows the loss of convictions. People who "know whom I have believed," (2 Tim. 1:12) seldom need the psychiatrist or the hospital for the mentally ill.

Faith in God, a belief in the Bible, and a steadfast determination to lead a Christian life in accordance with one's

ghost insights, is the best mental therapy ever developed. Those who read their Bibles every day, attend church regularly, and do their best to know and to follow the will of God, are not likely to become mentally ill, for they are being cared for by the Great Physician who knoweth our needs before we tell Him.

Most of the world's great leaders have been men of powerful convictions. Abraham's unshakable faith led him to leave his kith and kindred, and strike out alone and to become the father of a great people, a new nation, a new culture and a new religion.

Moses' convictions enabled him to found a great nation from a mob of slaves, and to lead his people through incredible hardships over a period of forty years of wandering in the desert.

Socrates' convictions led him to maintain the truth, and in perfect tranquility to drink the poison cup.

The early Christians triumphed over the sword, the lions and the stake because their convictions could not be shaken. Of course one may live and die for wrong ideals. It is important to have the right convictions. Most of us know what is right, but have lost our determination to do it, and fall into the category of these described in Revelations: "...because thou art lukewarm, and neither cold nor hot, I will spew thee out of my mouth." (Rev. 3:16)

If we can recover the faith of Paul expressed in the fol-

Hamlin's community contributions this year to the National Foundation formerly the National Polio Foundation are expected to exceed the community's gifts of last year, declared Ed Croan, community drive chairman, Wednesday as tabulations were being made on the almost completed campaign.

Joy Crawford of Abilene and Vernon E. Charlton of Arlington repeated wedding vows in a double ring ceremony Saturday evening at 6:00 at the Hamlin First Baptist Church.

TEN YEARS AGO:

Three people died in fires in the Hamlin region within two days this week. R. N. Shelton 72, was burned in the destruction of his home in East Hamlin Thursday and two Bevins children died of burns at the home five miles east of town Wednesday morning.

Total funds raised in the March of Dimes in Hamlin community this week neared \$1,000, reports Mrs. V. R. Bond, drive chairman.

Hamlin merchants were victims last week of home "hot check" artists. More than \$100 in worthless checks were passed. No arrests have been made.

lowing words, we will seldom need a physician and never a psychiatrist or mental hospital: "For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus or Lord." (Rom. 8:38 and 39).

HIS TROUBLES WON'T GET HIM DOWN

Forgetting his incapacitation, he is happily determined to plan ahead. His spirit is not easily crushed. Life is always full of hope and excitement. The Lord and this young man's Christian friends have taught him to have such an outlook on life.

"But the fruit of the spirit is love, joy, peace, long-suffering, gentleness, goodness, faith." Galatians 5:22.

We invite you to attend the church of your choice regularly to worship, to be uplifted, encouraged, and blessed.

PHILOSOPHER MULLS OVER THE UNEXPLORED PROBLEM OF WHO'S QUALIFIED TO BE A SENATOR

Editor's note: The Neindacoverage in that state, but I Philosopher on his Johnson was interested in some things grass farm on Route 1 gets into I read after that astronaut, a discussion this week which is Glenn, announced he was running for the United States Senate.

FAIRVIEW NEWS

By MRS. ELMER JOINER

We have very good news this week, concerning the weather, for Wednesday and Wednesday night there fell about an inch and a half of rain, and in some places a little more. This was really a life saver for the wheat, as a few more sand storms like the one we had a few Sundays ago, without some water, and the wheat might have been damaged beyond redemption. When things look the darkest for we farmers, the Lord usually takes pity on us and sends us rain, for which we are thankful.

The Drake Family is one hundred dollars richer, since winning in the Safeway, "Sword in the Stone" contest. Our congratulations go to them on their good luck.

Family night was celebrated Friday night, at the Oil Mill Guest House in Hamlin, with a supper, followed by a short program and fellowship hour. Twenty-six persons attended, including two visitors, Mrs. Leveretts mother and brother, Mrs. Ellen Tanner and Larry of Abilene.

Dorothy Gray is spending a few days at home with her parents, Mr. and Mrs. Winslow Gray. She is employed in a beauty shop in Amarillo.

Mr. and Mrs. H. L. Leverett, Odessa, parents of the pastor, were visitors in church Sunday morning. They were visiting their son and family over the week end and came out to hear him preach Sunday morning.

Visitors for lunch Sunday, of the H. L. Lords were, Mr. and Mrs. Fred Rosenbaum and Mr. and Mrs. Joe Ford.

Mrs. Mary Newberry, Karl, Bonneux and Elmer Joiner drove to Wichita Falls Wednesday, through the rain, to attend the District 3, Training Meeting, for the Home Demonstration Clubs.

Mr. and Mrs. Woodrow Goodwin visited with Mr. and Mrs. Winslow Gray Saturday night.

Mr. and Mrs. Clois Henry and children, from Snyder, flew over Sunday afternoon, for a visit with his parents, Mr. and Mrs. E. A. Henry.

Mr. Henry failed to make it to church Sunday morning as the ox apparently fell in the ditch for him. He had to load a cow and take her to the doctor. Times are changing so quickly, that when our animals

a field apparently nobody has explored, and if a young man came to you and said he was interested in training to be a senator, what would you tell him? I'm not up on these matters, but I doubt if there's a college or university in the country offering a course in Senatorship. It's like trying to study for the Supreme Court.

Another thing the papers said about Glenn was that he shouldn't try to start at the top, he ought to run for some lesser office first, I can see how a Senator could think a man ought to run for Congress first, and I can see how a Congressman could think he ought to run for a state office first, and I can see how a state office could say he ought to run for a local office first, and how a local official could say he ought to stick a while longer with farming or barbering or whatever he's doing, and while I had thought farming was the first step toward becoming a Senator I'd never taken it, still I doubt if this is the right system. I don't know of anybody who took up farming in order to qualify for public office, but I know several who took up public office to avoid farming.

Yet getting back to the original subject, is Glenn qualified by training to be a Senator, I doubt it. When he was completing his third orbit of the earth was getting ready to decide the split-second to pull the lever that'd return him to earth on target, what shape would he have been in if he'd had to refer the decision to a committee for ten months? Yours faithfully, J. A.

LIBRARY ADDITIONS
Texas State Library last week obtained an historic treaty and an historic suit of clothes. Both are certain to be viewed by thousands in years ahead.

Sen. Ralph Yarborough presented the Library a certified State Department copy of the El Chamizal treaty signed by President Johnson on December 29 — defining the boundary along the Texas-Chihuahua and El Paso-Juarez borders. The treaty, placed on display in a glass case, ended a century old boundary dispute.

Governor Connally, at the Library's request, turned over to the State archives the black, light-weight suit he was wearing when he was seriously wounded in Dallas. He was the first Texas governor to be the victim of an assassination attempt. The suit bears holes in the back, front and right sleeve. Also placed in the archives is the blood-stained shirt Connally wore on the tragic November day, and his black and gold silk tie.

Public Warned of Social Security Imposters in Area

Imposters who claim to be Social Security representatives are now operating in the Central Texas area and may be heading this way, warns R. R. Tuley Jr., District Manager of the Abilene Social Security Office.

Tuley said the impostors are asking money in payment for assistance in getting Social Security checks started or higher payment rates for those already receiving such checks.

Several persons have already paid the fraudulent representatives fees of \$19.60 for promised help, he said.

Tuley said real Social Security representatives carry identification cards and do not accept payment from applicants for their services.

Sprag Plug Sinker

All out of sinkers? Then gather up some old discarded sparkplugs. They make fine sinkers. Just bend the electrodes together and tie onto a wire leader. Should the sparkplug sinker become lodged between rocks, the soft electrode acts as a safety opening to free the leader and line.

County Purchases Billing Machine

Jones County Commissioners in a special session Friday authorized purchase of a Burroughs billing machine for use in the tax collector's office. There was only one bid submitted.

A. J. French, tax assessor-collector, appeared before the court at its regular January meeting, requesting the machine, pointing out that with the new valuation program, every tax notice in the county may have to be refigured. He reminded that not only does his office handle county taxes but those for two common school districts, a road district and state taxes as well.

The new machine, to be delivered in July, cost \$7,515.20 and will carry 19 totals. It will be used for making automobile registration reports and for other county work in addition to seeing heavy service during tax roll time.

The following article appeared in this month's "Celo News", a company publication of the Celotex Corporation. Since it is getting close to that tax paying time again it is well to take a look at some of the government programs that the public or business pays for but seems to think that the government furnishes.

"Can you count on the government to take care of your security? Many people seem to think so.

"Many people say, 'The government provides me with Social Security.' But does it? The truth of the matter is that you and your company provide Social Security. If you don't believe it, take a look at your check stub. And remember, your company matches every dollar you put into Social Security!

"What about unemployment insurance—that's the government, isn't it? It is paid out by government, but as many people don't know, it is paid entirely by employers. And the more profitable the company, the less chance that unemployment insurance will be needed.

"Your company benefits such as the pension plan, hospitalization, weekly indemnity insurance, and life insurance amount to much more security than the government can provide.

"The fact of the matter is that practically all of the Federal government's money comes out of the profits of companies and from the incomes of people like us, the wage earners.

"Remember, the government doesn't create money. It receives its income by taxing you and your company. A recent survey indicates that it takes the taxes of six working people to keep one Federal secretary on the job. We as wage earners pay pretty good salaries, don't we? You say you don't believe it! Take a look at your check stub next payday."
